58th Annual Meeting of the Pacific Dermatologic Association

August 9-13, 2006
Portola Plaza Hotel, Monterey, California
Suzanne Connolly, MD

On behalf of our Board of Directors, I would like to invite you to attend the 58th Annual Meeting of the Pacific Dermatologic Association, to be held August 9-13, 2006 at the Portola Plaza Hotel in beautiful Monterey, California. Our Program Chair, Patricia Engasser, MD, who is Adjunct Clinical Professor of Dermatology at Stanford University and Clinical Professor of Dermatology at the University of California – San Francisco, has assembled an outstanding program with both practical and cutting edge presentations on a full range of medical and surgical dermatological topics.

Terry O’Grady, MD, chair of the Clinicopathologic Conference (CPC), has secured John Maize, MD from Derm Path Diagnostics, Maize Center for Dermatopathology to serve as the guest dermatopathologist for 2006. One of the most popular and unique sessions at the PDA’s Annual Meeting, the CPC will feature the presentation and discussion of the clinical and histopathological correlations of interesting dermatology cases.

We encourage the participation of “up and coming” young dermatologists at this meeting – remember that dermatology residents can attend for free! In addition, our resident case symposium ensures that the best and brightest residents have the opportunity to present quality case studies. We encourage you to bring your families to enjoy Monterey and all it has to offer. Please make your plans to join us for what promises to be a great meeting.

Sincerely,

Suzanne Connolly, MD
Mayo Clinic - Scottsdale
President, Pacific Dermatologic Association

CALL FOR CASES, AWARDS & PEARLS
Clinicopathologic Conference Cases Deadline: June 30, 2006

The Pacific Dermatologic Association (PDA) is looking for high-quality cases to be presented at the Walter R. Nickel/Louis H. Winer Dermatopathology CPC, to be held during the PDA's 58th Annual Meeting this August in Monterey, California. One of the most popular sessions offered at each PDA meeting, the CPC will feature the presentation and discussion of the clinical and histopathological correlations of interesting and cutting-edge dermatology cases.

Cases will be chosen primarily on the basis of quality, but if two similar cases are submitted, preference will be given to the case that was submitted first. Each submitter of a case that is chosen for the CPC will be recognized by name, and their case (including pictures) will be published in the CPC syllabus.

To encourage an increased number of submissions, the PDA made a few important changes in the submission process starting in 2005. In the past, a number of great cases were not submitted due to a small specimen or insufficient material to cut the number of slides required. We now ask for two (2) H & E stained slides and four (4) unstained slides (for possible special stains). The slides can be made from serial sections to allow for conservation of the material in the tissue block. If you prefer, you can send the tissue block and we can cut the sections.

Please note that we still require clinical photos for all submitted cases and these can either be in the form of a digital picture or kodochrome slide. Contributors to the 2006 CPC will receive a CD containing all presented cases, including the powerpoint slides that will be shown at the meeting.

NICKEL/WINER “BEST CPC CASE” AWARD
The PDA will be presenting a plaque at the conclusion of the CPC Conference to the best submitted case as judged by the CPC Chairperson and the guest dermatopathologists.

To submit a case, please enclose the following materials:

1. One-page clinical history and findings (submission forms can be downloaded at www.pacificderm.org/pdfs/CPCallforCases.pdf)
2. 1-2 high quality clinical photographs in the form of a 2x2 slide or digital photo (preferred). Note: This photo will be published in the CPC Syllabus if your case is chosen.
3. Either one of the following:
   • 2 H & E slides, 4 unstained standard glass slides
   • One paraffin-embedded tissue block containing at least enough tissue to make 6 slides

Please send your submission to:
Terence O’Grady, M.D.
PDA Clinicopathologic Committee Chairman
Division of Dermatology
UCSD Medical Center
200 W. Arbor Drive
San Diego, CA 92103-8240

The submission deadline is Friday, June 30, 2006.
Questions can be directed to Dr. O’Grady at (619) 543-5580 or togrady@ucsd.edu.

Thank you! We depend on your submissions to make this CPC a valuable learning experience for all PDA members and meeting attendees!

“The educational content was excellent. I enjoyed the discussions on surgical closures and the update on botox and fillers. I prefer smaller meetings, like the PDA, as it is much more relaxed and you can ask more questions.”
