

PDA 2023 POSTER PRESENTATIONS

with assigned poster number

Poster #1

Understanding sun protection habits in residents of Atlantic Canada: A consensual qualitative research study

Sauliha Alli, University of Toronto

Poster #2

Longitudinal remote monitoring of hidradenitis suppurativa: a pilot study

Leandra Barnes, MD, Stanford University

Poster #3

Contact Dermatitis in the MSM Community: Poppers Dermatitis

Chavy Chiang, University of Rochester

Poster #4

The Impact of Dupilumab on Psychological Well Being in Moderate-to-Severe Atopic Dermatitis Patients: A Phase IV Clinical Trial

Kareem Elhage, UCSF

Poster #5

Pityriasis rubra pilaris developing after COVID-19 infection

Jana Guenther, USC

Poster #6

Melanocyte progenitor cells reside in human subcutaneous adipose tissue

Yuri Ikeda, MD, PhD, Juntendo University – Japan

Poster #7

Defining Human T Cell Trajectories Between the Blood and Skin in Psoriasis Patients

Joy Jin, UCSF

Poster #8

Treatment of Erosive Vulvovaginal Lichen Planus with Tofacitinib: A Case Series

Alexa Kassels, University of California – Irvine

Poster #9

Aesthetic outcome of running subcuticular suture versus running horizontal mattress suture closure of linear wounds: A randomized, split wound comparative trial

Zachary Kwapnoski, MD, University of California – Davis

Poster #10

Exploring the Online Search Trends of Tinted Sunscreen: A Comparative Cross-Sectional Analysis

Stephanie Marin, University of California, Riverside

Poster #11

A Vesiculopustular Variant of DRESS Syndrome

Thomas Norman, USC

Poster #12

The Relationship Between Melanoma Histological Subtype and Organ-Specific Metastases: An Observational Study

Sabine Obagi, University of Arizona

Poster #13

A Unique Presentation of Merkel Cell Carcinoma with Metastases to the Peritoneum and Lung

Chandana Papudesu, MD, Prime Healthcare - Los Angeles

Poster #14

Efficacy of a Video-Based Intervention in Improving Skin Cancer Risk Awareness and Preventative Behaviors Among Solid Organ Transplant Recipients

Neha Parvathala, USC

Poster #15

Non-healing digital ulcer with sporotrichoid spread: a unique presentation of cutaneous leishmaniasis

Julie Ramseier, MD, Stanford University

Poster #16

Primary Cutaneous Marginal Zone Lymphoma following COVID-19 Vaccination

Ilesha Ticknor, Kaiser Permanente

Poster #17

Direct-to-patient mobile teledermoscopy program: a single center experience

Amanda Twigg, MD, UCSF

Poster #18

Ethnic disparities in immune checkpoint inhibitor-induced cutaneous immune-related adverse effects

Katerina Yale, MD, University of California – Irvine

Poster #19

Dermatologists' demographics, prescribing patterns, and preferences regarding compounded medications in the United States

Karen Yang, University of California, Riverside

Poster #20

Delayed Onset Toxic Epidermal Necrolysis due to Pembrolizumab

Paulina Michi Young, MD, Kaiser Permanente
